

Mitel MiVoice 6920 IP Phone

Quick Reference Guide

Mitel MiVoice 6920 IP Phone

Getting started

Adjusts the volume for the ringer, handset, speaker, and headset.

Multi-directional navigation keys are used to navigate through the phone menu. Press the center button to select menu options and perform various actions.

On the Home screen, the left and right navigation keys can be used to access the additional pages of programmable keys. Toggles the phone's audio between speaker and headset. If you are using a DHSG/EHS headset, ensure that the headset jack adapter is removed from the headset port. See the *Mitel MiVoice* 6920 IP Phone Installation Guide for more details.

Warning!

The headset port is for headset use only. Plugging any other devices into this port may cause damage to the phone and will void your warranty.

User Interface (UI) overview

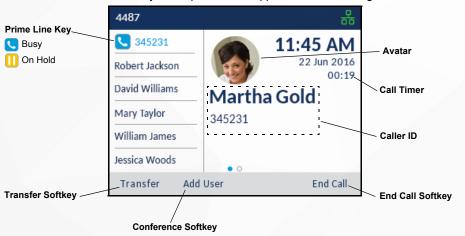

Home screen

The Home (default) screen is displayed when the phone is in the idle state. The Home screen displays status indicators, user directory number, avatar, last dialed number, time, date and list of programmable softkeys.

Call screen

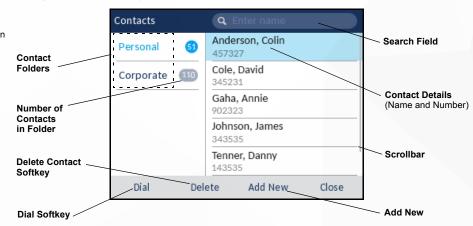

When on an active call, caller's avatar, name, number and call duration timer is displayed. The context-sensitive softkeys are updated with applicable call handling features.

Applications

Contacts

The Contacts application stores personal phone book and directory. The Mitel MiVoice 6920 IP Phone supports a localized Personal directory as well as enhanced functionality allowing for interoperability with LDAP (corporate) directories.

Making a call using the Contacts application

- 1. Press the key to access the Contacts application.
- Navigate to the respective contacts folder and scroll through the contacts by using the navigation keys

or

Enter characters using the keypad and press the **Search** softkey to use the search feature.

 When the applicable contact is highlighted, press the Select button or Dial softkey to place a call using the entry's default phone number

To place a call to a different phone number defined for the entry (for example, a mobile number), press the right navigation key, highlight the phone number you want to call using the up or down navigation keys, and press the **Select** button or **Dial** softkey.

Call History

The Call History application displays a list of your missed, outgoing and received calls. You can view, delete and dial out to call history entries as well as copy entries to your Contacts application.

Using the Call History application

- 1. Press the Rey to access the Call History application.
- Scroll through the lists by using the navigation keys. To view additional entry details, press the Right navigation key when the entry is highlighted.
- Press the Select button or Dial softkey to place a call to the respective entry or Press the Add Contact softkey to copy the entry to your Contacts application or Press the Delete softkey to delete the entry from your Call History.

Voicemail

When voicemail functionality is enabled, the MWI LED on the Mitel MiVoice 6920 flashes red and the (Voicemail) icon displays on the status bar indicating that voicemail messages are available. You can access your voicemail service by pressing the Voicemail key

Visual voicemail

Visual voicemail enables access to voicemail system and displays a count of all, new

and recorded voicemail messages.

Note: Voicemail and visual voicemail functionality must be configured by your System Administrator.

Enabling visual voicemail

- 1. Press the (Settings) key on the phone to access the Static Settings menu.
- 2. Navigate to Voicemail using the left navigation key and then press the Select softkey
- 3. Press the **Select** softkey to select the **key opens Voicemail App** checkbox.
- 4. Press the **Save softkey**.

 $\textbf{Note:} \ \ \text{For security reasons, the password can be enabled only from the user login screen}.$

Note: For additional visual voicemail functions, refer to the Mitel MiVoice 6920 IP Phone User Guide.

Advanced call handling

The Mitel MiVoice 6920 IP Phone provides a method for transferring calls through the **Transfer** softkey.

Transferring a call

- 1. Ensure you are on active call with the party you wish to transfer.
- Press the Transfer softkey.

© Copyright 2017, Mitel Networks Corporation. All Rights Reserved

The trademarks, service marks, logos and graphics (collectively "Trademarks") appearing on Mitel's Internet sites or in its publications are registered and unregistered trademarks of Mitel Networks Corporation (MNC) or its subsidiaries (collectively "Mitel") or others. For a list of the worldwide Mitel Networks Corporation registered trademarks, please refer the website: IntuIn/www.mitel.com/trademarks.

The active call is placed on hold.

3. Enter the transfer recipient's number and press the **Transfer** softkey.

Creating a multi-party conference call

- Ensure you are on active call with one of the parties with whom you wish to create a conference.
- 2. Press the **Add User** softkey. The active call is placed on hold.
- 3. Enter the conference target's number.
- Wait for an answer, consult, and then press the Join Calls softkey to create the threeway conference call.
- Repeat steps 2 to 4 to add an additional party (maximum of seven participants) to the conference.

Speed Call programmable key configuration

A **Speed Call** key allows you to dial a specified number with one key press. **Speed Call** keys can be useful as they can be programmed to dial directly to an internal or external number or quickly access features that use feature access codes. You can also transfer calls to or create conference calls using your **Speed Call** keys in place of dialing out manually.

Note: Configuring a programmable key using the press-and-hold method is only available if enabled by your System Administrator.

Programming a Speed Call key

- Press and hold the applicable programmable key (for 0-5 seconds) until the Label Name field is displayed.
- 2. In the **Label Name** field, enter a label to apply to the key.
- Note: Use the ABC softkey to specify uppercase letters or lowercase letters when entering the label.
- Press the down navigation key to move to the **Number** field and enter the number using the dialpad keys.
- 4. (Optional) Press the down navigation key to move to the **Private** checkbox and press the **Select** button to make the key a Private Speed Call key. When a Private Speed Call key is pressed, the call is considered private and caller ID information is not displayed in the phone's call history.
- 5. Press the **Save** softkey to save the information to the key you selected.

Note: Other features such as Phone Lock, Call Forward Always, Do Not Disturb, and Account Code keys can be programmed using the press-and-hold method (if enabled by your System Administrator). For more information, please refer to the *Mitel MiVoice* 6920 *IP Phone User Guide*.
